

EDC Solutions

EDC Solutions offers versatile consultation and training for education, community, and healthcare systems committed to improving prevention and wellbeing for their workforce and the people they serve.

Accessible services addressing complex challenges

Since 1958, Education Development Center (EDC) has collaborated with public and private partners to advance education and health solutions in communities across the globe.

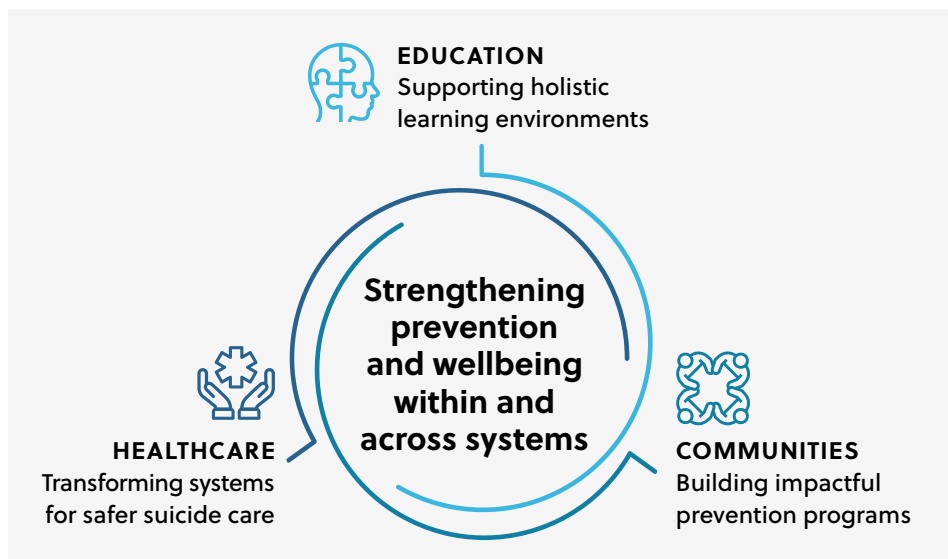

EDC Solutions brings this vast expertise directly to you. Individual organizations, agencies, and professionals can have the same access to EDC services as multinational institutions and large foundations. As an EDC Solutions client, you choose the services best suited to your mission, delivered on a timeline you can sustain. Our extensive team of experts are ready to guide you through best practices to develop innovative solutions.

A better world is possible when we transform together.

Through thoughtful collaboration, we encourage our clients to:

- **Lead** systemic change for lasting impacts
- **Bridge** divides between siloed initiatives
- **Provide** person-first support to beneficiaries
- **Empower** workforce skills and resilience
- **Assess** the landscape in a changing world
- **Strive** for continuous quality improvement

EDC Solutions in Education

Education & Wellbeing experts provide professional development and consultation at schools and across districts on a multi-tiered, systems approach to effective practices in academic instruction, social emotional learning (SEL), and mental health.

Our services range from integrating SEL into practice to alleviating teacher and administrator stress to multi-tiered suicide prevention improvements. Since 2021, we have worked with educators and administrators in rural, suburban, and urban districts, reaching more than 170,000 students. We provide responsive, strategic, and cost-effective solutions that support the wellbeing of the entire school community.

EDC Solutions in Communities

Prevention Solutions empowers communities with the expertise and tools necessary to build and sustain impactful programs in substance misuse, problem gambling, and suicide prevention. We take a collaborative approach, promoting evidence-based strategies to create healthier, safer communities.

We've worked with nonprofit, state government, and community organizations to provide training and resources reaching thousands of beneficiaries. Through interactive workshops, expert-led seminars, and tailored consultation, we provide the tools and support necessary for proactive intervention.

EDC Solutions in Healthcare

Zero Suicide Institute provides expert support to systems of care committed to adopting and sustaining continuous quality improvement practices designed to transform suicide prevention and treatment.

From tailored consultations to interactive workshops, we offer a wide array of services globally, including our signature Zero Suicide Academies and Assessing and Managing Suicide Risk (AMSR) curricula. Trusted by over a thousand organizations, including state mental health authorities and federal agencies, we have trained and supported more than 120,000 healthcare leaders, clinicians, and staff. As stewards of the Zero Suicide Toolkit at ZeroSuicide.edc.org, we provide free resources to facilitate implementation and improve care outcomes.

“Working with EDC Solutions has been very impactful. The EDC team brought expertise in education and mental health and assisted us in our strategic planning for social emotional learning and adult wellness district wide. They were extremely flexible and accommodating in working with our schedule and our different team members.”

Jaimie Piotrowicz
former Director of Social Emotional Learning, School District of Philadelphia

“Zero Suicide Institute at EDC has remarkable expertise in suicide prevention. The guidance and coaching they’ve provided to our healthcare partners has already made a tremendous impact.”

Kristen Mizzi Angelone
Director, The Pew Charitable Trusts’ Suicide Risk Reduction Project
